	X		was balanced against the ER Ranking, however, if at any time it was determined that an
ARS MS	. 1		

The preparation and annual updating of an ER Ranking list was appropriate in the early years of conducting accelerated actions at Rocky Flats when the site closure baseline was under development However, there is now a detailed baseline and schedule for closing the entire site that addresses the sequencing of D&D and ER projects, and therefore, the RFCA Project Coordinators believe that the continued updating of the ER Ranking in accordance with RFCA paragraph 79 is no longer appropriate Accordingly, the annual updates to the ER Ranking beginning with the update scheduled for the close of federal fiscal year 2002 will no longer be conducted

individual hazardous substance site was impacting human health or the environment, such that immediate action was warranted, then action would be taken as soon as possible
